

# TurtleSkin ChemBio

Style # TCB-200 (yellow)

TCB-300 (black)

Heavy-duty ChemBio  
inner glove liner

Aramid knit shell  
for cut, tear, &  
abrasion protection

Autoclave  
to sterilize  
for style  
TCB-200

Puncture, cut  
& abrasion  
resistant palm

Only the new TurtleSkin ChemBio System couples a barrier membrane with a tough outer shell. The inner liner resists Nerve and Blister Agents like GA, VX, HD or HN while the rugged outer shell provides cut, puncture and abrasion resistance for the otherwise fragile butyl membrane.
